Project / Title: Quiet Place Directory Kiosks

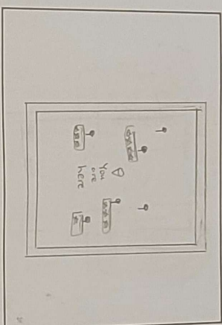

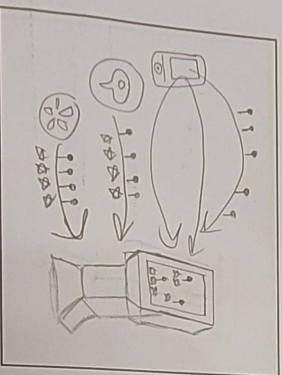

This work is licensed under a Creative Commons Attribution NonCommercial ShareAlike 4.0 International License
www.designthinkermakebreakrepeat.com
 Designed by the authors of Design Think Make Break Repeat: A Handbook of Methods (MIT Press)

1 A kiosk that lets you find quiet places

to meet with friends and family with

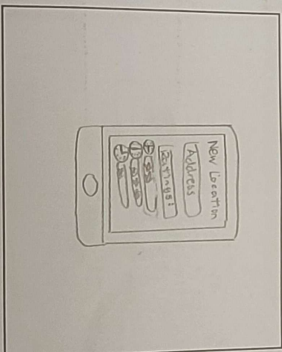

hearing loss or hearing impairment.

2 On the kiosk it shows nearby

meeting places based on a loudness

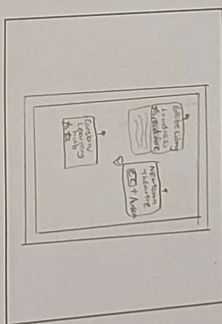

rating for each place.

5 People can submit reviews and adjust

their estimated loudness rating based

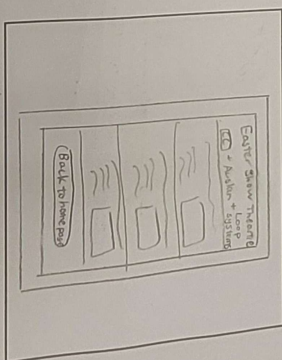

on different time frames / dates (short/long)

3 It provides information on public

location and accessibility services

spaces like cafes, theatres, libraries, museums, meeting rooms etc.

6 Based on upcoming seasonal events /

public holidays the kiosk suggests

events that are accessible for hard of

hearing people.

4 A pairing app crowd sources locations

from user submissions like Google maps

or Yelp, to provide reviews and information accuracy.
