

Project / Title: Hand Translator

This work is licensed under a Creative Commons Attribution NonCommercial ShareAlike 4.0 International License.
Designed by the authors of Design Think Make Break Repeat: A Handbook of Methods (MIS Publishers)
www.designthinkmakemakebreakrepeat.com

1 A line size hand translator device

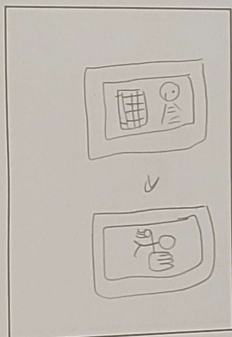

that can translate sign language to text and vice versa through cameras

4 For the sign language interpreter

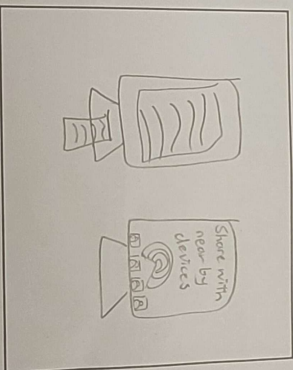

model presented for text/audio to

sign language translation a people can select the specific sign language they want.

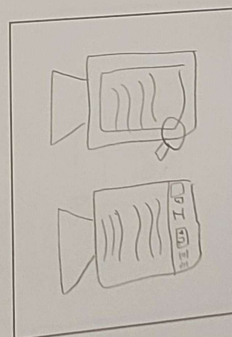

2 People can submit voice recordings

on tape out text to translate into sign language.

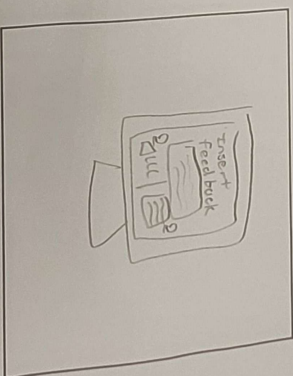

5 The translated medium can be

shared/downloaded to one's phone, or to print a paper copy.

3 One can customise the font

style & sizes colour & and formatting of the translated text.

6 One can provide corrections/

feedback at the end for translation errors or alternatives.
